

Step-by-step Guide

1. Write one objective from the nine roadmaps.
2. Specify the directly contributing units for that specific roadmap.
3. Write the measure/s that can be seen in the upper right-hand side of the roadmap.
4. Indicate the initial target (in quantity) of the measure/s under the "Target" column; Then, write down the status of the target in the "Actual to Date" column (in quantity also).
5. Determine the appropriate Status for that measure:
 - Green for accomplished deliverable;
 - Yellow for on going deliverable; and
 - Red for deliverables that were not accomplished or has not yet started.
6. Write all the KRA (Key Result Area) that are listed in the left-hand side of the roadmap in the "KRA" column of the Strategy Review Report
7. There is a yearly deliverable for all KRAs in the roadmap, write these deliverables (for the current year only) under the "Deliverable" column of the Strategy Review Report.
8. Then, write the current status of the deliverable in quantity under the "Actual to Date" column.
9. After that, determine the appropriate Status for each deliverables (follow instruction number 5).
10. Lastly, with all the collected data, figure out what you should "Continue", "Stop", and "Start" doing to have a better performance in achieving the deliverables.

STRATEGY REVIEW REPORT (1st Quarter of 2024)	Objective		Directly Contributing Units	
	1		2	
Measure	Target	Actual To Date		Status
3	4	4		5
Key Result Area	Deliverable	Actual To Date		Status
6	7	8		9
Continue		Stop		Start
10		10		10

STRATEGY REVIEW REPORT (3 rd Quarter 2023)		Objective	Contributing Units
		Ensure financial sustainability through fiscal responsibility	Finance, Medical & Nursing
Measure	Target (2019)	Actual To Date	Status
Hospital income	Increase by 15%	> 15%	
Budget Utilization	100%	100%	
RTH	5%	15%	
Denied Claims	Decrease by 1%	1% (no decrease)	
Key Result Area	Deliverable	Actual To Date	Status
PhilHealth Benefit Packages	Peritoneal Dialysis	For approval	
	VSD	To be scheduled for mission with PHC	
	Cardiac Cath Case Rates	Functional by Jan; case rates available by Dec	
	Thrombolysis	For rate setting	
Revenue Generating Measures	Use of EMG, NCV	Rates being reviewed for EMG, NCV	
	Use of TCD, EP	None (being outsourced)	
	Industrial Clinic	Started in June for clients from other institutions	
	Pay parking with vending machines	Not allowed to charge for parking	
Continue		Stop	Start
- Industrial Clinic - Rate setting for EMG & NCV		Pay parking	- Carry over unmet deliverables and set for next years - Looking for other sources of funds - Determining fees for all procedures
